

Hi all,

My name is Lotte and I am the treasurer of the MARUG board this year. I am 21 years old (the youngest of the 42nd board). Furthermore, I like to play field hockey, go to terraces, go out and do fun activities with my friends. I am in my final year of the bachelor in Business Administration, where I chose the track Accountancy & Control. That's why the position of treasurer seemed so much fun to me!

I chose the position of treasurer because the financial aspect appealed to me, but also because of the central and important role in decision-making. Because all money matters pass by me, I always know what is going on within the MARUG. Creatively looking at the possibilities of how it fits within the budget is one of the things I do on a daily basis. But also the (semi-)annual financial report, all financial administration and guiding the treasurers of all committees are part of my tasks. I also supervise a few other committees in general and I am the sustainability officer of the MARUG. This makes it a very varied job, which I personally really enjoy.

During my year at the MARUG I learned a lot. I have become a lot more confident on a professional level, my English has improved a lot and I now understand exactly how a balance sheet and a profit and loss account are put together. I have also become a stronger communicator, both professionally and socially. I met a lot of new people and made friends for life!

The hardest thing this year was my time schedule. There are so many fun things that come with a board year, but it can be busy at times, which did leave me with less time for my roommates, club and friends. I had slightly underestimated that at the beginning. But luckily it's mostly with fun events and quieter periods come again, so it's totally worth it!

The MARUG of course has a lot of events, all of which are fun. Still, I personally have 2 that are the highlights for me: the Ski Trip and Commercial Night 2022. The Commercial Night was our first formal event as an official board. This was of course a milestone itself, but I also thought it was a very fun and interesting event, with enthusiastic speakers and a good theme. I also accompanied this committee, which made it extra special. My other highlight was the ski trip. This year we went to La Plagne with 30 (active) members. This was really an amazing week, with a fantastic group, great slopes and incredibly nice weather. This was the best week of my entire board year!

Would you like to experience all of this too? Are you interested in becoming a treasurer or a part of the 43th board? Then send a message (06 46637545) for a coffee with me!
